## Fanatical about Frogs

Written and illustrated by Owen Davey

Published by Flying Eye Books £12.99 (h/b)

Age range: Interest 5 - 9 years old, Read 7+

### Description

There are over 4,000 known species of frog. Some are bigger than your dinner plate, while others are small enough to sit on your fingernail, and in between is about every colour and size you can imagine!

Did you know that if you picked up a Yellow Dyer rain frog, your hands would be stained yellow? Or that the Bornean Flat-Headed frog has no lungs, and breathes entirely through its skin? What about the fact that the Goliath Frog is the largest species of frog in the world, reaching a possible 32 centimetres from nose to ear and weighing around the same as a newborn human baby?

Each page is an absolute wonder, presented flawlessly, with just the right level of information for primary school kids to be truly fascinated and inspired to find out more.
