

Suntrap Shared Stories

Marnie Rose

CEO The Garden Classroom

As a pupil at Cann Hall Primary School in Leytonstone in the '70's I regularly visited Suntrap, to this day I can remember the smells and colours of walking in Epping Forest, wearing wellies and being allowed to get wet and muddy... seeing hedgehogs close...and eating my egg mayonnaise sandwiches.

These are some of my happiest childhood memories and inspired me to start The Garden Classroom a charity and social enterprise that provides heavily subsidised high-quality learning in natural environments programmes for Islington and Hackney schools in local parks and gardens and further afield camping in Kent.
