

# Climate Justice - act local, think global

## Secondary Keynote Activity Ideas

### Quick idea

Watch the key note video

#### Discuss:

What in your life do you consider luxuries, what would be the hardest to give up?

Now watch the climate justice talk.

#### Discuss:

What could wealthier countries do to stop the impacts of climate change being so unfair?

Are there examples of climate injustice in the UK? Hint: COVID-19 and air pollution campaigns have been highlighting the same injustices.

### Learn about Uganda

Uganda is rich in biodiversity and has varied climates. It is known as 'The Pearl of Africa'.

Students can find Uganda on a map and research something about the country; i.e. habitats, recycling, agriculture, energy production, literature, history.

### Lesson ideas

The Thought Box [Equality & Justice curriculum](#) provides lesson plans and resources for Years 1 – 13. Signing up for a free account is required.

### Join the Inequality Debate

SALVE International run an [Inequality Debate](#) via [this online forum](#) on the last Thursday of the month but students around the world can use their [Secondary Resources](#) and contribute to the debate any time during the month.

Follow [@SALVEint](#)  
[@Fridays4FutureU](#)

### Dig Deeper

**East Africa Oil Pipeline (EACOP):** A new transnational oil pipeline is currently being built across Uganda. Compare the information on the [official EACOP website FAQs](#) and the [STOP EACOP campaign website](#).

#### Is there really no food waste?

This is Rubbish's video '[Inequality and the causes of food waste](#)' tells a different story.

#### Case studies:

These [Principles of Climate Justice](#) are explained with case studies.
