

Transport

Enrich your Eco-Schools experience with climate learning and global connections for the whole class

Act Local

Action for Clean Air by Global Action Plan provides wide ranging lesson plans, pollution calculator and how to take part in [Clean Air Day](#) 16 June, 2022.

Take [Action for Clean Air](#)

Global Goals links

3 GOOD HEALTH AND WELL-BEING

11 SUSTAINABLE CITIES AND COMMUNITIES

Think Global

Vehicles and planes that use fossil fuels cause air pollution which can damage the natural environment as well as harm human health. Read about [the causes of acid rain](#) and do a simple experiment.

[Make your own acid rain](#)

Climate Connections

Often the steps we can take for clean air also help reduce carbon emissions and improve the environment.

- [Sustrans Active Travel literacy and numeracy framework](#) contains 28 activities including calculating the carbon footprint of a journey to school - numeracy activity 8.
- [Air Pollution Research](#) resource set by the Primary Science Teaching Trust enables students to use Defra's Air Data Archive to investigate air quality and pollution. (Age 9 - 11)
