

# Climate Action in Waltham Forest Schools

## Curriculum and formal learning opportunities

### Eco-Schools programme

- Council funding for the Eco-Schools Green Flag application fee for all schools and colleges 2022 and 2023
- Tailored support for schools to establish student-led eco-groups
- Free assemblies, student symposium, lessons and CPD to help bring the Eco-Schools topics to all students.
- [Information and resources here](#)

### Eco Leads in Schools

- 72% of primary and 75% of secondary schools in borough have an Eco lead.
- Eco-leads get regular updates including a monthly debate and resources
- [Half-termly teach-meets.](#)

### Learning Resources

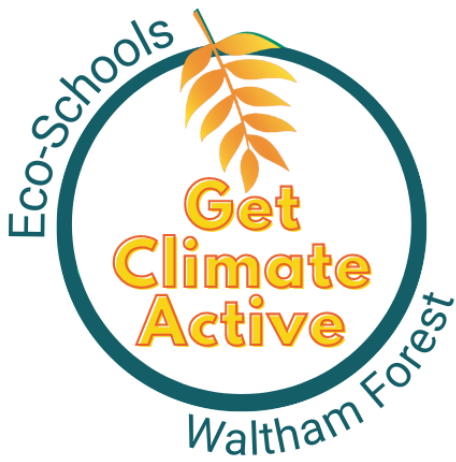

- Overview of climate education support and curriculum resources available on the [Climate Learning section of the Suntrap website](#)
- [Climate Summit 2021 online](#) – themed videos and resources, organised by age groups, is available to help schools run their own Climate Action Day or Week

### Tailored Climate Education & Action Workshops

- The Climate Action Outreach Coordinator can run workshops tailored to a topic or initiative.
- Can be part of project-based learning, off time table day, campaign etc

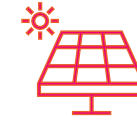

# Climate Action in Waltham Forest Schools

## Curriculum and formal learning opportunities

### Climate Leadership programme

- [Accredited \(CREST\) programme](#) covering climate literacy, politics and local democracy, creative and systems-thinking methodology and communications skills
- Term long programme for KS3
- Graduates can join the Young Climate Advisors group

### Suntrap Forest Centre – a centre for climate action

- [Suntrap](#) is state-of-the-art example of climate friendly building and working with nature; including ground source heat pump and solar panels
- New climate curriculum for KS1 – KS4
- New Carbon Literacy training tailored for different audiences

### Teacher CPD

- Bespoke twilight session or INSET day training: climate literacy and bringing environmental and climate learning into the classroom
- Can be held at your school or the Suntrap Forest Centre

### Young Climate Advisors

- Young people (12 – 21-years) will be invited to monthly workshops and meetings to inform local climate action
- They will be informed of relevant opportunities such as UN youth programmes
